

We make it easy to do business

Superior service and streamlined solutions empower our partners and their clients to get things done faster

Drop a ticket

Drop a ticket in one of five ways – via Legal & General America's Partner Dashboard, MobileSuite, unique URL, third-party vendor platforms or paper application.

Digital application platform

When you drop a ticket, eligible clients will receive an email link and text notification to complete their application for life insurance online. The new online journey can be completed at home in less than 20 minutes. Customers who need help can call us with questions during business hours or let our team help them complete the application over the phone. Available in all states except New York.

AppAssist

Our AppAssist tele-application process utilizes our traditional application, which is completed over the phone in as little as 45 minutes. Let our team of in-house professionals take the application fulfillment and administrative burden off your shoulders.

Accelerated underwriting

If using either AppAssist or the new online digital application, qualified applicants may be approved faster and more conveniently with no medical exams or labs required. Applicants who do not qualify will continue seamlessly through traditional underwriting.

eDelivery

Meet client expectations with digital signature, payment and delivery of their insurance policy. eDelivery reduces cycle time by two weeks and eliminates mailing costs. Clients can pay first premiums online with a credit card, PayPal® or through bank draft.

Upload documents and submit checks

Our free document uploader tool makes it easy for agencies to quickly submit scanned documents directly to us via the Partner Dashboard, ExamOne or Paperclip. Save time and money by processing checks online with Check21.

Get More upsell

39% of U.S. households say they need more life insurance*. Help close the coverage gap by opting-in to offer increased coverage options to clients who are eligible for more coverage with no additional underwriting.

Online service options for agents

Agents can drop a ticket, use our web-quoting tool and access complete policy data online through our Partner Dashboard.
