

Lab Lift

Exam Substitution Program Overview

Today, over **30 percent** of applicants are approved through our digital application without labs/exams or an APS.

Lab Lift gives even more clients an easier, lab-free experience.

With Lab Lift from Legal & General America, the best of both worlds is available to your eligible clients. For those who do not qualify for accelerated underwriting within the digital application, Lab Lift is another path to a more convenient, lab-free experience.

An attending physician statement (APS) will be used as a substitute for a paramedical exam and fluids — by pulling medical data and lab results from recent physician visits.

Eligibility

- Ages 20–60
- Comprehensive physical within the last 18 months that includes complete blood work
- Applicants can apply for up to \$2 million in coverage (including any existing coverage with Banner Life that is not being replaced)

Current requirements waived

For those eligible for the program, the full paramed requirement will be waived for individuals ages 51–60 with face amounts over \$500,000. The EKG requirement will be waived for individuals ages 51–60 with face amounts between \$1 million and \$2 million.

Up to \$2 million in coverage with no exams or blood work!

No additional paperwork or new information required.

Eligibility for digital Lab Lift is determined by date of last physician visit and blood work which is already built into the digital application. If the client does not qualify, a paramed exam will be ordered.

Lab Lift

Exam Substitution

A simple online application with built-in accelerated underwriting, plus a new path for exam substitutions means less hassle, fewer labs – and more families protected.

Digital Application: Accelerated, Lab-free Approval

- Ages 20–60, up to \$1 million, any term duration (Females up to age 55 may qualify for up to \$250k)
- Standard Plus, incl. Preferred Tobacco or better
- Lab-free decision following validation

Not approved lab-free? We'll check eligibility for Lab Lift next:

Lab Lift Exam Substitution

- Lab/Physician questions during application determine eligibility (blood work last 18 months)

Exam Substitution

FAQs

How do I submit the digital Lab Lift case?

Simply drop a ticket. Nearly all cases can be completed on the new digital application, with a few exceptions at this time:

- New York applications
- Waiver of Premium
- Business coverage
- Multiple policies for one applicant

Will my client need to do anything new in order to qualify?

No, data collection to determine eligibility is already built into the digital application. If the applicant is age 20-60 and has had full bloodwork with their physician in the last 18 months, they will be considered. Ordering physician must be included.

Will Lab Lift underwriting work on replacement business?

Yes, replacement business may qualify for Lab Lift, if eligible.

Are there any rate classes that do not qualify for Lab Lift?

No, all rate classes including table-rated cases can be underwritten using Lab Lift.

What factors might result in my client not qualifying?

- The applicant does not meet the age parameters
- The applicant is applying for more than \$2 million (including any existing coverage with Banner Life or William Penn that is not being replaced)
- The applicant has not been to see a medical professional and had a comprehensive blood panel done in the last 18 months
- The applicant does not have 2 years of established medical history for an underwriter to review

What happens if my applicant does not meet qualifications?

The application will proceed through traditional underwriting and a paramed will be ordered.

How do I follow the status of my client's qualification?

Same as today. Case status will be available through Partner Dashboard and other agency management vendors. In the Underwriting Case Notes section you will see a hold for a paramed exam.
